Subject: RE: Meeting on Tuesday

Hi Andrew,

Laurie and I are planning to leave Seattle around 11. If traffic is not too bad, we should be in Lacey in time to have lunch – perhaps at the cafeteria?

If you would like to join us for lunch, please feel free to text or call me on my cell

Subject: Meeting on Tuesday

Chris and Laurie:

I grabbed a meeting room (2D-18), and here's my proposed agenda. If this wasn't what you were thinking, let me know.

- (1) EPA's takeaways from Gov't to Gov't meeting with SIT.
- (2) Help me understand your administrative preferences (i.e. written versus meeting).

(3) Discuss the eight items you mentioned at our last meeting, attempting to put them into the five buckets listed below. Where possible, get to specifics of what it would be. We won't be able to reach resolution on every issue.

(4) Discuss approach for meeting with NWEA the following week.

(5) Discuss how to keep Budd Inlet (and other TMDLs) on a better path.

A written description of the areas of the TMDL that you see are problems, with possible solutions, would be great. Seems like the solutions fall into five buckets: (1) solve through EPA clarifying the TMDL in your approval, (2) solve through Ecology sending a clarification memo, (3) solve through an informal addendum to the TMDL, (4) solve through resubmitting a new TMDL with new public notice, or (5) solve through not approving certain listings. For things that fall under buckets (1) or (5) [i.e. things that Ecology doesn't need to address], I'm fine with keeping it verbal.
